How to connect to MSDIS image server

1. In ArcMAP, click “Add Data”.
2. Scroll to “GIS Servers”
3. Click “Add ArcGIS Server”, A new window will popup, choose “use GIS services” and click “next”
4. Enter http://moimagery.missouri.edu/arcgis/services in Server URL box.
5. Double click “arcgis on moimagery.missouri.edu”
6. Double click directory “MSDIS”
7. Select the service and add them to ArcMAP.

*(For ArcGIS 9.3 users, you may want to change the transmission compression to LZ77 in layer properties to have faster speed.)*
